known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

Xpedition - Mentor Graphics

Mentor is a US-based electronic design automation multinational corporation for electrical engineering and electronics, headquartered in Wilsonville, Oregon. The company was founded in 1981 by Tom Bruggere. Mentor Graphics was noted for distributing products which assisted in electronic design automation, simulation tools for analog mixed-signal design, VPN solutions, and fluid dynamics and heat transfer tools. Before Mentor was sold, the company made several acquisitions of ...

Mentor's Display Control gives designers and librarians myriad options for influencing how a design is displayed on the screen. The goal of any display scheme is to have any information a designer needs readily visible, so more time is spent working, as opposed to scouring the design for the portion you wish to work on.
