In this regard, John R. Little's THE MEMORY TREE reminds me a little bit of Stephen King's 11/22/63. It even takes us to a similar time period. There the similarities end, however. Little's novel was published several years before King's and doesn't deal with anything as large scale as the assassination of a United States president.

If one line can sum up John R. Little's debut novel, THE MEMORY TREE, from the fine folks at Nocturne Press, this is surely it, as the author illustrates the defects of memory- its cheats and swindles. Sitting somewhere between Koontz and Matheson, THE MEMORY TREE, tells the engrossing streamlined story of Sam Ellis, an aging,

The ultimate in nerdy Christmas trees: a small tree made from old, obsolete memory modules. Everyone who ever built or upgraded a computer has some of these laying around, and as they get old and too low-capacity to be of any use, they lose all purpose. But it's hard to throw something out that still works, isn't it?
