A Mathematicians Apology Gh Hardy

A Mathematician's Apology is a 1940 essay by British mathematician G. H. Hardy, which offers a defence of the pursuit of mathematics. Central to Hardy's "apology" — in the sense of a formal justification or defence (as in Plato's Apology of Socrates) — is an argument that mathematics has value independent of possible applications. Hardy located this value in the beauty of mathematics, and ...

A mathematician's apology by G. H. Hardy This is an old book. First published in 1940, it's a lot older than the books we normally review in this section. The film *The man who knew infinity* made me want to re-read it (something that can be done in a couple of hours) and it's been worth it. Within the rich, and often brilliant offering of popular books on mathematics that's
