Since the American Civil War, the powers of the federal government have generally expanded greatly, although there have been periods since that time of legislative branch dominance (e.g., the decades immediately following the Civil War) or when states' rights proponents have succeeded in limiting federal power through legislative action, executive prerogative or by constitutional ...

Federal government of the United States - Wikipedia

American Government: An Overview. The Constitution is the framework for the federal government of the United States of America. Written in 1787 and adopted in 1788, it carves the federal government into three branches. Generally, the legislative branch makes America's laws, the executive branch enforces the laws, and the judicial branch decides cases under the laws.
