Hey guys, I wanted to know what oil I should be running in the 429, the guy that we bought it from said a straight 40 or 50 weight racing oil. I hear that racing oils though don't have detergents and allow sludge to build up. real sorry to ask something so simple, sadly I can't search for the answer as the forum won't search 3 letter words, like oil.

I have a 79 F-700 dump truck. #4 and # 8 rods scrambled bad enough to ruin block and crank. I bought a used 1973 (based on sticker on valve cover) 429 engine complete. I have been told the 429 is a straight drop in replacement for the 370. Also it has a clark 285V tranny. If anyone knows where I can buy seal/gasket kit for it I would appreciate it.

My oil gauge stopped working, and the check engine light came on. The oil level is good so I know it's not that. Do you have a wiring diagram for the 7.5 L 460 FI engine? Where is the oil sending uni ... read more

Where is the oil pressure sending unit located on a Ford 460?

This Mustang was called the Boss 429. The head design was also used on a special 302 Mustang. That car was named the Boss 302. Ford sold enough Boss 429 Mustangs to qualify the motor for racing. The aluminum heads used in the Boss 429 engines featured: Modified hemi-spherical design

Ford Cobra Jet 429-428-427 - CarMemories.com

The Ford 429 and 460 engines, introduced in 1976, were massive, heavy and for their size surprisingly low on horsepower. The number refers to the cubic inches of displacement, which is the volume swept by all the pistons in the engine. This number is directly linked to the amount of horsepower the engine can provide, ...
