Our primary functions include structural, geotechnical and civil engineering along with drilling and construction materials testing. We have grown to a team of over seventy-five, and provide our services from six permanent locations, including the Gold Coast, Sunshine Coast, Melbourne, Moranbah, Rockhampton and Emerald.

Structural, Geotechnical and Civil Engineering | Protest ...

Geomechanics is the application of engineering and geological principles to the behaviour of the ground and ground water and the use of these principles in civil, mining, offshore and environmental engineering in the widest sense. The Australian Geomechanics Society was founded in 1970. Its origins lie in the National Committee of Soil Mechanics of the Institution of Engineers, Australia established in 1953 and the call for a corresponding society in rock mechanics.
