Luxman were primarily specialists in making vacuum tube amplifiers of the highest caliber. One of the traits of Luxman equipment from this era is the quality and warmth of vacuum tube sound, paired with powerful solid-state electronics and often beautiful, minimalist aesthetic designs.

Luxman L-55A Integrated Amplifiers

Today's loaner is an integrated amplifier whose stages operate exclusively in class A. This includes the output stage which is capable of 20W at 8Ω and 40W at 4Ω to draw parallels with another Japanese company and recent reference point for Luxman, Accuphase and their A-550 amplifier.

6moons audio reviews: Luxman L-550A II

First of a very successful line of integrated amplifiers which would receive many awards and sell very well worldwide. Designed and produced before the Alpine "takeover / collaboration" and just before the DAD revolution, the L-550 did receive a "State of the Art" award in 1982 besides being selected as "Best Product" by Stereo Sound. Most of the direct followers also became Stereo Sound "Best ...

Luxman L-550 on thevintageknob.org

The Original L-550, a great amp with great dynamics, I'm told was the best part of a years av wage back in 81'. I see it's been re-released as a Mk 11, it'd be nice to do a comparison sometime. Buy one of these amps old or new before they outlaw them because of power usage, I think most class A amps on the market run at around the 500 watt mark.
