Myths Of Gender Biological Theories

Anne Fausto-Sterling exposes various past sexist theories by patriarchal scientists, which the latter dropped as soon as they found out that on a closer, updated look, they would actually FAVOR women. Only to be replaced by new misogynous theories. The entire field of sociobiology is unmasked as an illusion.

Myths Of Gender: Biological Theories About Men and Women ...

The way they are treated socially in combination with their biological sex will determine the child's gender. The approach assumes that gender identity is neutral before the age of 3, and can be changed, e.g. a biological boy raised as a girl will develop the gender identity of a girl. This is known as the theory of neutrality. Empirical Evidence
