Samsung recommends first trying to reset your ice maker, as this might propel the appliance into action to defrost itself. When resetting doesn't work, the next step is to empty your freezer of its contents and to gather a bunch of towels. Very carefully, use a hairdryer to melt the ice enough so that your appliance can resume normal function.

Manual Defrost A manual defrost freezer does not contain any automatic heating elements to prevent the build-up of frost or ice. It requires the owner to manually defrost the freezer coils as frost builds up. When the coils are covered by too much frost and ice, airflow is restricted and the freezer won't efficiently cool food.
