depending on the problem, the prevailing situation, and the role of the employee in the organization, but the following skills are key to the problem solving. Analytical ability. Lateral thinking. Initiative.

Analytical Thinking Skills for Problem Solving - IspatGuru

Download Free Show A Problem Solution Thinking Maps

The very first step to approach problems with solution focused thinking is to avoid questions that mainly focus on the reason or the problem in general. You need to clarify yourself that the question for the “WHY” will only waste important time that you could have invested to solve a given problem.
