This review covers the Sony DVPSR210P DVD Player I purchased this DVD player (for the GF) to replace an older unit that failed. I wanted a no-nonsense simplified player without all the so called "bells & Whistles" a higher priced unit might offer. Out of the box this unit looks real nice and performs great as a 100% dedicated DVD player.

The Sony DVP-SRS10H DVD player is a super easy to use device that still crams in lots of useful features. From 1080p upscaling and HDMI support to Dolby Digital audio and DVD+R playback, this does a lot. What it won't do is region free playback, which bumps it down to second on the list - that and that fact this is a bit slower to load.
