Summary : the outsourcing revolution : why it makes sense ...

The "make or buy" decision has been a staple of industrial economics as far back as the start of the Industrial Revolution. So when perceived levels of outsourcing began to rise around the world over the past decade or two, researchers began to ask why. One reason might be the speed of technological innovation during that period.

The Impact of Technological Innovation on Outsourcing ...

In the beginning, the outsourcing movement was meant to transfer low-skill jobs out and retain highly-skilled jobs as an important asset for the advancement of the country's economy.

4 Ways Outsourcing Damages Industry

The idea of outsourcing is not new. It started way back in the s when manufacturers started shifting the manufacture of goods to countries with cheaper labor during the Industrial Revolution, following the precepts of Adam Smith in his book 'The Wealth of Nations'.
